## **Regional Development QLD Award 2011 Weipa Integrated Services Facility**

The project involved the construction of a replacement hospital as the original Weipa Hospital had exceeded its use by date. The functions of hospital had been expanded over the past decade with additional services being accommodated in a series of ad-hoc demountable buildings.

The new hospital was on a Greenfield site and provided facilities for primary health care, emergency and medical imaging, day surgery, acute care accommodation, aged care accommodation, mortuary, support services, administration, staff accommodation and a colocated ambulance service accommodation.

The project was also part of the pilot program to develop the Green Building Council of Australia Green Star rating system for hospitals and has become **the first and only hospital in Australia to achieve a 4-star rating under the pilot program.**
